1. The amendment filed on 10/6/04 has been entered.

### **Claims Rejection Under 35 USC - 102**

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7, 10-16, 19-22 and 43-46 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by **Ohnishi et al** (4,196,967).

Ohnishi et al discloses optical system with masking means and method for producing it which comprises a lens 20b, a marking 2a formed on surface entirely outside an effective area of the lens to distinguish between a surface and a back of the lens.

It should be noted that although claims are "method claims", the method steps consist of the broad steps of "forming" , "coating" etc and therefore these steps would be inherently satisfied by the apparatus of the reference as modified.
